GROUP 1700

Commissioner for Patents
Washington, DC 20231

Sir:

Petition To Withdraw Application From Issue Pursuant To
37 CFR 1.313(a) For Entering Substitute Specification And Claim Amendments

Applicants request withdrawal of the application from issue for consideration and entering of a substitute specification and claim amendments. Applicants have amended claims 1 and 5 and added new claims 8-24. New claims 8-24 are dependent from claim 1, and therefore are also allowable. No new issues are presented as a result of these amendments.

Applicants submit a substitute specification according to 35 U.S.C. § 1.121(3). A marked-up version of the substitute specification showing all the changes including the matter being added to and the matter being deleted from the specification of record is provided.

I hereby certify that I have a reasonable basis for believing that this correspondence will be deposited with the United States Postal Service as first class mail in an envelope addressed to the Commissioner for Patents, Washington, D.C. 20231, on February 21, 2003.
